RYCO 24•7

CALL, CONNECT & GO

The RYCO 24•7 network of service centres and Mobile Connector Specialists offers the complete range of quality RYCO products and onsite service for all hydraulic port to port requirements, ensuring minimal downtime and increased productivity.

RYCO 24•7

RYCO 24•7 operators are equipped with local knowledge and industry experience. All operators are fully trained, providing you with the confidence you need in our services and products.

Supported by quality RYCO products, RYCO 24•7 is now servicing your local region.

TRAINED TECHNICIANS

Our fleet of Mobile Connector Specialists are highly qualified and well equipped, ready to go twenty-four hours a day, seven days a week.

Our nationwide phone number 0800 111•24•7 is staffed and assures you of personalised service from our local Mobile Connector Specialists at all times.

SERVICE

LOCAL SERVICE

With a network of over 50 outlets throughout New Zealand, you can be assured there will be a local RYCO 24•7 Mobile Service near you.

Whether you require a complete RYCO managed system or replacement of your hydraulic connections, a RYCO 24•7 Mobile Connector Specialist is a phone call away.

INDUSTRY EXPERTISE

RYCO is a specialist supplier of hydraulic hose and fittings to the mining, agriculture, industrial, utilities, defence, marine and construction industries, with over 60 years experience.

RYCO 24•7 Mobile Connector Specialists are experienced in providing a broad scope of services to these industries, ranging from hydraulic hose replacement to complete port to port solutions and onsite hose management systems.

CONTAINERS

The RYCO 24•7 container program is ideal for remote locations, providing customers with an onsite hose and fittings replacement workshop. Containers provide an onsite stock holding and crimper and hose assembly equipment for emergency breakdown services, ensuring your equipment is always at its peak.

RYCO

RYCO

RYCO is an Australian supplier and manufacturer of hydraulic hose and fittings, delivering mobile services as RYCO 24•7.

Our understanding of the specialised requirements of heavy duty industry means that RYCO can provide expert engineering solutions and hydraulic management service and support.

Today RYCO actively works with the Mining, Industrial, Marine, Agricultural, Construction, Utilities and Defence industries.

QUALITY & SAFETY

All RYCO hydraulic hose and fittings are designed and manufactured to meet and exceed relevant industry standards. RYCO produces hydraulic hose that is dimensionally consistent and when matched with RYCO couplings, results in increased safety and performance.

RYCO's testing and evaluation process guarantees the performance and quality required to meet the demands of today's applications by safely conveying fluid at high pressure.

PRODUCTS

RYCO hose specifications have exacting tolerance bands. Typically, RYCO manufactures hose to dimensional tolerances less than half those specified by SAE J517.

Manufacturing such consistent product increases both quality and performance. Multiple facilities and high capacity delivers the product and service our customers have come to expect.

KNOW HOW

TRAINING

RYCO offers a broad range of modular training solutions to meet the needs of the hydraulic industry.

With safety a priority, RYCO training equips you with the knowledge and confidence you need.

HAVE

"Hose Assembly Visual Evaluation." A comprehensive training presentation with three purposes:

- Highlights the dangers inherent with the use of high pressure hoses
- Demonstrates signs of potential failure
- Explains best practices for hose installation

HALP®

RYCO - Hose Assembly Lifespan Predictor (HALP®) is a program that predicts the lifespan of hose assemblies for given conditions and environments.

RYCO HALP® aids in determining when to economically carry out preventative maintenance and replace hose assemblies.

Proactively, HALP® assists in risk management, minimising fluid injection injuries.
